

# DJ-Catalog version 1.0.4 beta

## **instruction manual**

This manual cannot be redistributed without permission from [design-joomla.eu](http://www.design-joomla.eu)

Visit the official website [design-joomla.eu](http://www.design-joomla.eu) of this Joomla component and other extensions and high quality templates.

# Table Contents

1. Overview Files
2. Installation
3. DJ-Catalog component – configuration
4. Displaying a catalog on a website
5. DJ-Catalog Frontpage module – configuration
6. DJ-Catalog Menu module – configuration
7. DJ-Catalog Producers module – configuration

## Overview Files

All packages can be downloaded from our website <http://www.design-joomla.eu/downloads.html>  
A complete list of available install packages:

1. DJ-Catalog component
2. DJ-Catalog Frontpage module
3. DJ-Catalog Menu module
4. DJ-Catalog Producers module

### Notice:

All modules are based on DJ-Catalog component. It means that they don't work without DJ-Catalog component.

## Installation

Install all the packages in the ordinary way.

Navigate *Extensions* → *Install/Uninstall*, choose the package and press *Upload File & Install*.

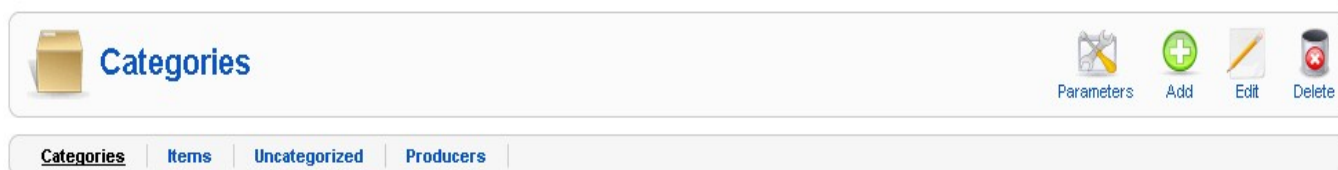

Now the component is available on your components list and all installed modules are displayed on Module Manager. Let's take a look at configuration of each installed item. As a DJ-Catalog is a basic one, we will start with it.

## DJ-Catalog – configuration

The DJ-Catalog component allows you to segregate products in a thematic categories, assigning pictures and attachments to them.

Navigate *Extensions* → *DJCatalog*

You will see a page with empty list of categories:

Let's start with creating an example category.  
Press „Add” at the top panel, then fill an inputbox with a category name.

**Details**

 **Name**

**Parent Category** Main Category 

The first category must stay as Main Category, the next one can be assigned as a subcategory(optionally).

See an example list of categories:

**Categories** | **Items** | **Uncategorized** | **Producers**

- Select State -

<input type="checkbox"/>	ID	Name	Parent	Published
<input type="checkbox"/>	4	<a href="#">First category</a>	0	
<input type="checkbox"/>	3	<a href="#">Second category</a>	0	
<input type="checkbox"/>	5	<a href="#">Subcategory 01</a>	3	
<input type="checkbox"/>	7	<a href="#">Subcategory 02</a>	3	

The second step is creating a producer.  
Choose a link „Producers” and press „Add” button.  
This is required, so if you don't need to have any producers, enter your own name.  
At least one producer has to be entered.

**Details**

 **Name**

Now we can pass on to create an individual item of a category.  
Before doing this, take a look at a parameters view, where you can set items configuration.

 **DJCatalog**

**Global Configuration**

<b>Items per page</b>	<input type="text" value="7"/>
<b>Price unit</b>	<input type="text" value="EUR"/>
<b>Side of price unit</b>	<input type="text" value="Right side"/> ▼
<b>Show price</b>	<input type="text" value="Yes"/> ▼
<b>Small Thumbnail width</b>	<input type="text" value="56"/>
<b>Small Thumbnail height</b>	<input type="text" value="32"/>
<b>Thumbnail width</b>	<input type="text" value="270"/>
<b>Thumbnail height</b>	<input type="text" value="180"/>
<b>Show footer</b>	<input type="text" value="Yes"/> ▼

Short description:

**Items per page** – number of items displayed per page

**Price unit** – enter a currency you want to be displayed

**Side of price unit** – position of displayed price

**Show price** – show/hide price

**Small Thumbnail width/height** – a dimensions of a small image measured in pixels e.g. displayed in rows/columns in *Frontpage module* or in different views of the component

**Thumbnail width/height** - a dimensions of an image measured in pixels, it is a main image which is linked to its large image

**Show footer** – show/hide link to design-joomla.eu addons

When you have your parameters configured, choose „Items” on control panel and press „Add” to add new item.  
You will see a page:

Name	<input type="text"/>
Parent Category	Uncategorized <input type="button" value="v"/>
Producer	Choose producer <input type="button" value="v"/>
Intro text	<div> <b>B I U ABC</b>   [List Icons]   -- Styles --   -- Format --   -- Font family --         </div> <div>[Rich Text Editor Icons]</div> <div><input type="text"/></div>
Description	<div> <b>B I U ABC</b>   [List Icons]   -- Styles --   -- Format --   -- Font family --         </div> <div>[Rich Text Editor Icons]</div> <div><input type="text"/></div> <div> <input type="button" value="Image"/> <input type="button" value="Pagebreak"/> <input type="button" value="Readmore"/> </div>

If you want to make some changes in added item e.g. change an image or a description, you have to edit a respective item.

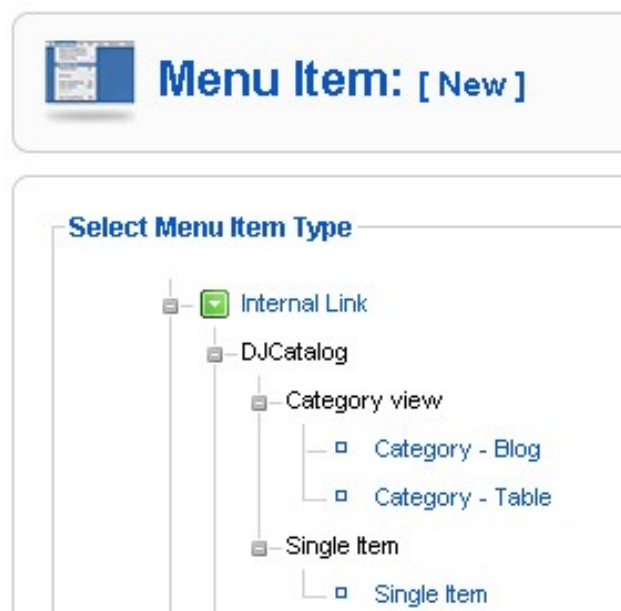

## Displaying a catalog on a website

Using a component there are three ways to show your categorized items.

1. **All items – Blog** - see an example on demo site <http://addons.design-joomla.eu/djcat/all-items-blog.html>
2. **All items – Table** - see an example on demo site <http://addons.design-joomla.eu/djcat/all-items-table.html>
3. **Single item** - see an example on demo site <http://addons.design-joomla.eu/djcat/item-with-lots-of-images-and-files.html>

Navigate to a menu where you want to create a link and select DJCatalog from a menu item type. This will allow you to make another choice between mentioned options above.

**Remember to insert unique ID for**

a) category blog or table

▼ Parameters (Basic)

Category ID	<input type="text"/>
-------------	----------------------

check an ID at category list

Categories	Items	Uncategori
------------	-------	------------

<input type="checkbox"/>	ID	
<input type="checkbox"/>	4	First category
<input type="checkbox"/>	3	Second category
<input type="checkbox"/>	5	Subcategory 01
<input type="checkbox"/>	7	Subcategory 02

b) single item

▼ Parameters (Basic)

Item ID

check an ID at item list

Categories | Items | Uncategorized | Producers

- First category
- Second category

<input type="checkbox"/>	ID	Name
<input type="checkbox"/>	26	Another item
<input type="checkbox"/>	6	Test product 1
<input type="checkbox"/>	12	Test product 134
<input type="checkbox"/>	31	demo product
<input type="checkbox"/>	32	demo 3rd product
<input type="checkbox"/>	19	Test product 114

## DJ-Catalog Frontpage – configuration

Another way to show a content of DJ-Catalog is by using DJ-Catalog Frontpage module. This Ajax module displays thumbnails and a brief description of a product. Thumbnails' size are imposed by the component settings.

See an example at our demo site <http://addons.design-joomla.eu/djcat/index.php>

Look at the configuration view and short description of parameters.

**Parameters**

▼ **Module Parameters**

Module Class Suffix	<input type="text"/>
Show title	<input checked="" type="radio"/> Yes <input type="radio"/> No
Show category name	<input checked="" type="radio"/> Yes <input type="radio"/> No
Show pagination	<input checked="" type="radio"/> Yes <input type="radio"/> No
Order by	Fixed order ▼
Categories	<input checked="" type="radio"/> All <input type="radio"/> Selected
Select	<div> <div>First category</div> <div>Second category</div> <div>Subcategory 01</div> <div>Subcategory 02</div> </div>
Thumbnail columns	<input type="text" value="1"/>
Thumbnail rows	<input type="text" value="3"/>
Show footer	<input checked="" type="radio"/> Yes <input type="radio"/> No

## Short description:

An ability to show/hide: title, category name and pagination

**Order by** – select an items' order

**Categories** – choose a category you want to display in a frontpage module

**Thumbnail columns** – enter a number of columns you want to create for thumbnails

**Thumbnail rows** - enter a number of rows you want to create for thumbnails

**Show footer** - show/hide link to [desing-joomla.eu](http://desing-joomla.eu) addons

## DJ-Catalog Menu – configuration

This module displays a tree with DJ Catalog categories - the same style as the normal menu. You can specify whether the category will be displayed in a table or a blog layout.

**Parameters**

▼ Module Parameters	
Module Class Suffix	<input type="text" value="_menu"/>
Layout	<input type="radio"/> Table <input checked="" type="radio"/> Blog

## DJ-Catalog Producers – configuration

This module allows you to view the products assigned to the selected producer. You can specify whether the category will be displayed in a table or a blog layout.

**Parameters**

▼ Module Parameters	
Module Class Suffix	<input type="text"/>
Layout	<input type="radio"/> Table <input checked="" type="radio"/> Blog

### Notice:

Remember to save settings of each module and publish them at a proper position.
