

## Color Chooser

Color Chooser is a Gantry-Admin based control interface which, through simple controls, allows you to change all color and style elements of the template, such as text and background color.

## Access the Color Chooser

Access the Color Chooser from **Admin** → **Extensions** → **Template Manager** → **rt\_zephyr\_j15** → **Settings**

## Configuration

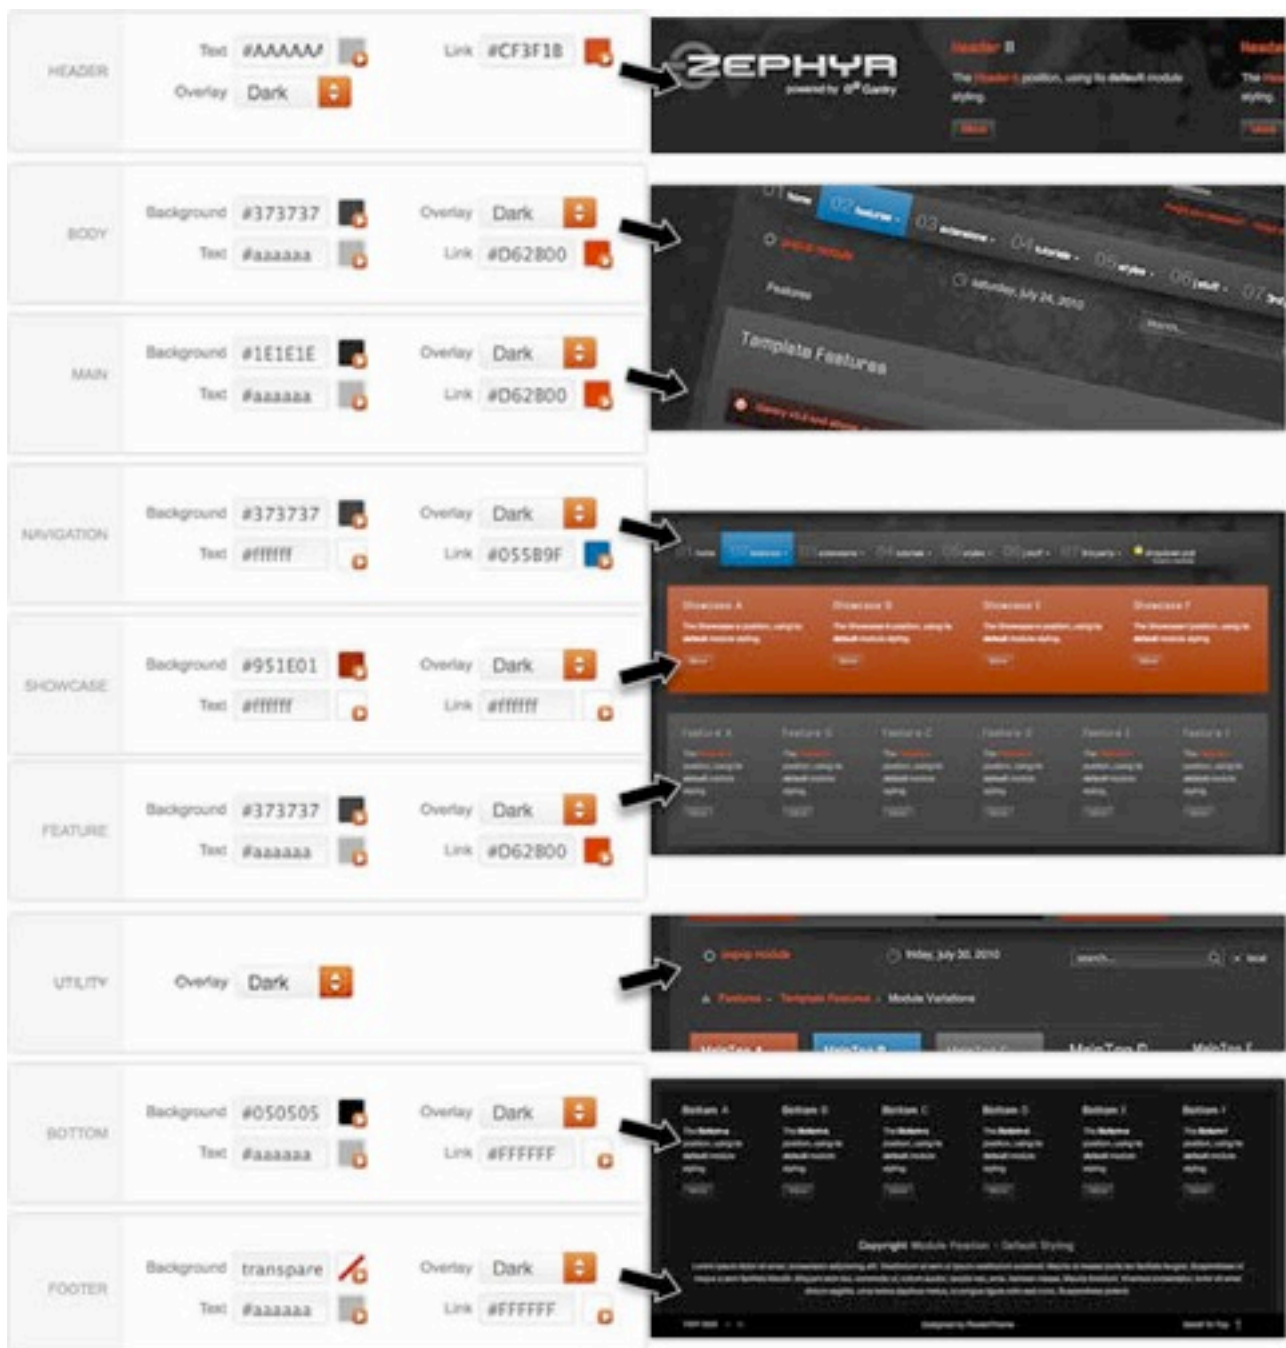

You can control 7 sections of the template, in 4 different aspects:

### Color Chooser Sections

- Body - *Background Area*
- Main - *Mainbody / Content Area*
- Navigation - *Menu Area*
- Header; Showcase; Feature; Utility; Bottom; Footer - *Module Position Rows*

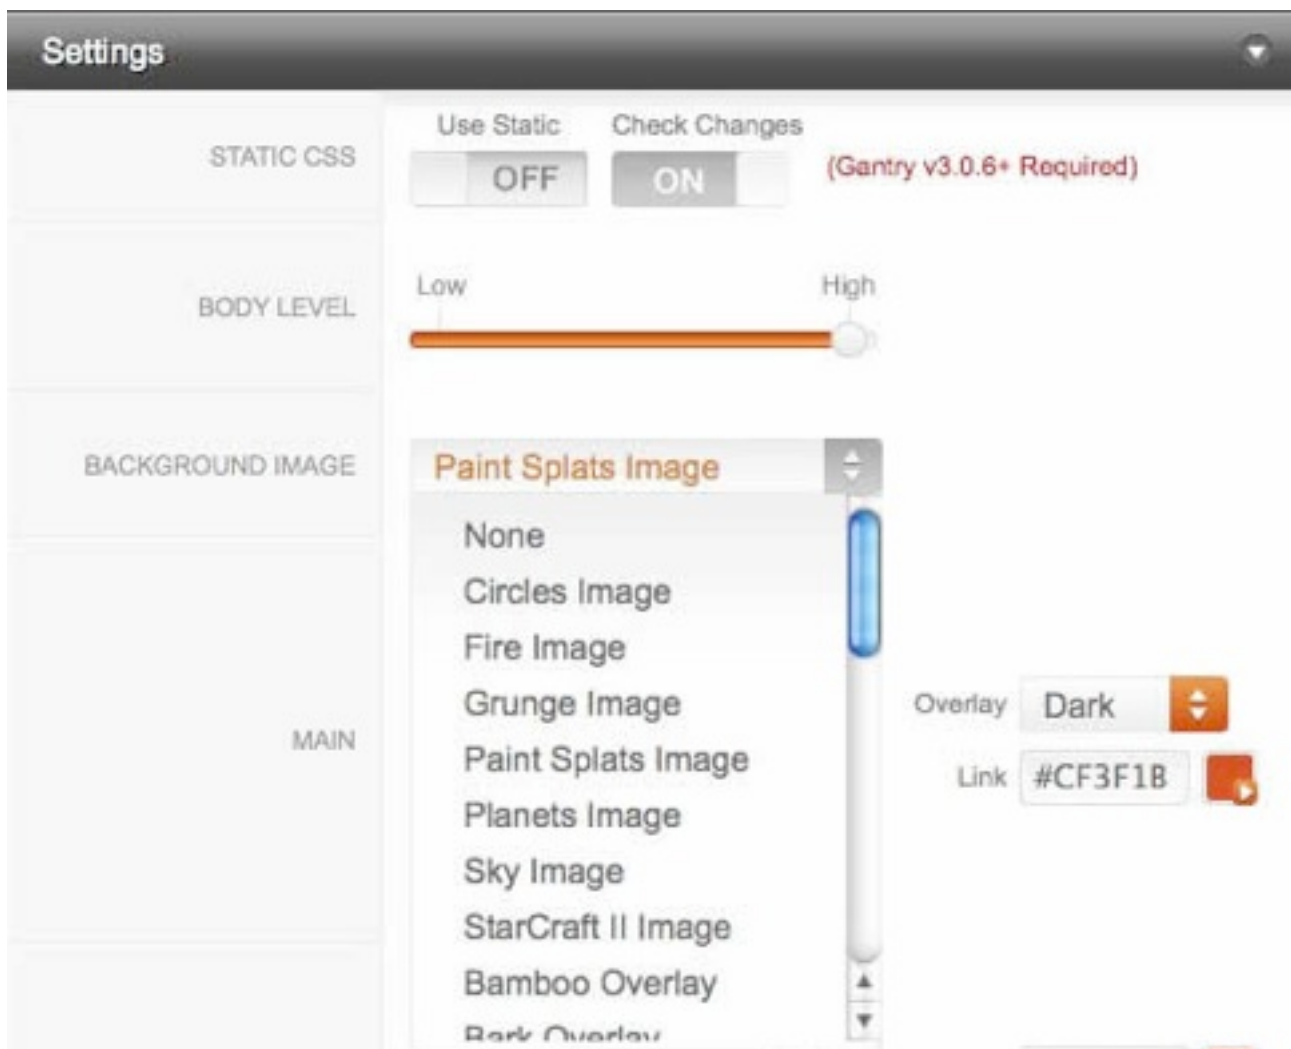

### Section Controls

- Background Color
- Overlay Type - *Light or Dark*
- Text Color
- Link Color

### Configuration: Background Controls

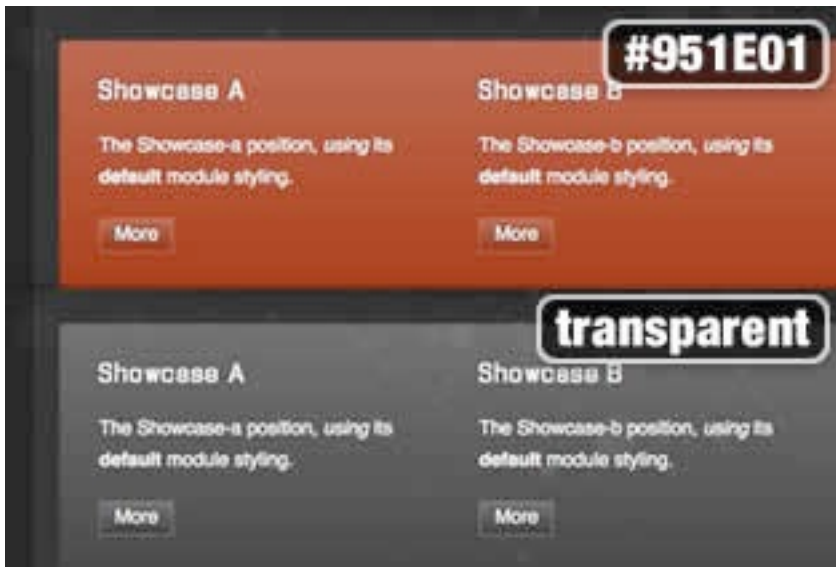

- **Static CSS:** Places all inline CSS into CSS files for increased performance
- **Body Level:** *High or Low* to reduce the detailing of the template such as no overlays
- **Background Image:** Select an image to display in the page background

### *MooRainbow & Transparent Mode*

Click on the color icons to trigger the **MooRainbow** popup. Pick any **color** or **transparent**.

## Gantry Settings → General Style Controls

These settings are not directly affiliated with the Color Chooser portion, but affect the template styling nevertheless.
